**---ABSTRACT OF THE DISCLOSURE**

A method for treating hydrocarbonaceous feedstock to produce hydrogen, electricity, and one or more liquid hydrocarbon product, the method comprising: (a) subjecting hydrocarbonaceous feedstock to hydrotreating hydrogen in the presence of supported catalyst under hydrotreating conditions effective to produce hydrotreated product comprising one or more liquid hydrocarbon product; (b) subjecting hydrotreated product to hydrogen production conditions effective to produce hydrogen product and hydrogen production remainder; (c) subjecting a first part of the hydrogen product to electricity generating conditions effective to produce electricity; and (d) recycling a second part of the hydrogen product as hydrotreating hydrogen.---
